Unlocking Solutions in **Autoinflammatory Disease Care:**  
Best Practices and Innovations

## PROGRAM DAY 1 - FRIDAY 15/03/24

13:00 - 13:20

### OPENING

Michael Hofer (CH)

13:20 - 14:50

### WHEN TO SUSPECT AND HOW TO DIAGNOSE A SYSTEMIC AUTO-INFLAMMATORY DISEASE (SAID) IN CHILDREN AND ADULTS

#### Moderation :

Michael Hofer (CH)  
Philippe Mertz (FR)

From phenotype to diagnosis in children

Yonatan Butbul (IL)

From phenotype to diagnosis in adults

Rim Bourguiba (TN)

Challenging case

Mariana Rodrigues (PT)

Challenging case : Blau Syndrome

Wafa Hamdi (TN)

14:50 - 15:10

### BREAK

15:10 - 16:50

### TESTING FOR AUTO-INFLAMMATORY DISEASES: GENETICS AND BEYOND

Genetics of AID

 Shruti Bajaj (IN)

Great debate: Challenges in the interpretation of genetic results: clinical phenotype versus genotype

Guilaine Boursier (FR)

 Marco Gattorno (IT)

Moderated by Michael Hofer (CH)

Diagnostics beyond genetics

Dirk Foell (DE)

Challenging case

Ricardo Craveiro Da Costa (PT)

Supervised by Katerina Theodoropoulou (CH)

16:50 - 17:10

### BREAK

17:10 - 18:40

### PHARMACOLOGICAL TREATMENT OF PFAPA/SURF : IN WHICH PATIENTS AND WHICH DRUGS?

New pharmacological approaches for PFAPA

 Ezgi Deniz Batu (TR)

Which drug to treat an undefined SAID?

Helmut Wittkowski (DE)

Great debate: switch to surgical approach, early versus late

Natasa Toplak (SI)  
& Veronique Hentgen (FR)

Challenging case

Roberta Caorsi (IT)

## PROGRAM DAY 2 - SATURDAY 16/03/24

13:00 - 14:50

### MANAGEMENT OF MONOGENIC SAIDS: CDMARDS OR BDMARDS DEPENDING ON REGIONAL AVAILABILITY

The management of hereditary recurrent fever syndromes (FMF, MKD, TRAPS, CAPS)

Yosef Uziel (IL)

#### Moderation:

Raju Khubchandani (IN)  
Marija Jelusic (HR)

The management of other monogenic SAIDs (DADA2, BLAU, MAJEED, HA20, LACC1)

Tilmann Kallinich (DE)

Roadmap for resource challenged regions in managing SAIDs (panel discussion)

🌐 Endah Citraresmi (IN), Gail Faller (ZA),  
Deepti Suri (IN), Ricardo Yopez (CO)  
Moderated by Raju Khubchandani (IN)

The challenge of dealing with a new disease

🌐 Ahmet Ozen (TR)

14:50 - 15:10

### BREAK

15:10 - 16:40

### HEMATOPOIESIS AND INNATE IMMUNE DISEASES

Clonal Hematopoiesis of Indetermined Potential : what are we talking about ?

🌐 Arsène Mekinian (FR)

#### Moderation:

Wafa Hamdi (TN)  
Sophie Georgin Lavalie (FR)

VEXAS

🌐 David Beck (US)

CHIP and auto-inflammation

Sophie Georgin Lavalie (FR)

Challenging case

Ines Elhani (FR)

16:40 - 17:00

### BREAK

17:00 - 18:20

### CHALLENGING CASES : WHAT CAN WE LEARN?

**Experts pannel:** Dirk Föell (DE), Wafa Hamdi (TN), Raju Khubchandani (IN), Helen Lachmann (UK), Sophie Georgin Lavalie (FR).

#### Moderation:

Veronique Hentgen (FR)  
Ines Elhani (FR)

Challenging case 1 : DADA2

🌐 Naziya Perveen (IN)

Challenging case 2 : FMF

Caroline Vinit (FR)

Challenging case 3 : Amyloidosis

Charlotte Girard (CH)

Challenging case 4 : The power of collaboration

Alexandre Belot (FR)

18:20 - 18:35

### CLOSURE

Michael Hofer (CH) &  
Veronique Hentgen (FR)
